Mental preparation and performance

1. Mental preparation techniques

- ▶ Physical - Involves a number of techniques where the intertwined nature of the body and mind is used to relax the athlete. This might be in the form of progressive **muscle relaxation** or **deep** _____.
- ▶ **Mental** - This can be in the form of _____ or positive “self-talk”. The performer should breathe deeply and slowly. The performer can also use distraction techniques like listening to music.

_____ and Mental _____

- ▶ This is a process of _____ yourself performing the chosen skill in your mind. You imagine yourself performing well and this **increases** _____ and decreases anxiety.
- ▶ A tennis player may take a few seconds to visualise him or herself hitting the perfect serve in the place where he or she wants.
- ▶ A quarterback can go through a play in his mind just before performing the play.

2. Benefits of mental preparation techniques

Using these **mental preparation techniques** can improve **performance**.

- ▶ Controls _____ and less likely to get angry.
- ▶ Able to make _____ logical decisions.
- ▶ Can _____ better with stress and anxiety.
- ▶ Improves _____ and focus.
- ▶ Able to _____ quicker.
- ▶ Raises _____ and positive thinking.
- ▶ Raises _____.
- ▶ **“Psychs”** you up and gets you ready for action.
